Privasia lands RM216m job from Westports

KUALA LUMPUR: Ace Market-listed Privasia Technology Bhd has been awarded a RM216 million outsourcing contract from port operator, Westports Malaysia Sdn Bhd.

The 10-year contract requires Privasia to undertake planning, provision, management support and operations of Westports' IT infrastructure.

Privasia is an ICT and business process outsourcing player in Malaysia, serving logistics, education, finance, manufacturing and fast moving consumer goods (FMCG) customers.

The project is the largest contract awarded to the company to date.

It targets to commence work on the project in 2QFY11, and believes it would start contributing to the company's top line in FY11 onwards.

For FY10 ended December, Privasia posted a net profit of RM4.68 million on the back of RM37.85 million in revenue. In FY09 the company registered a net profit of RM1.06 million from a RM27.16 million turnover.

In its notes accompanying its financials, Privasia said that the better showing in FY10 was largely because the group was only formed in May 2009.
