## **Privasia unit gets RM12.8m fibre optic job in Malacca**

KUALA LUMPUR (April 25): Privasia Technology Bhd's subsidiary Privanet Sdn Bhd (Privanet) has received a contract worth RM12.8 million from the Malacca state government to install and maintain fibre optic network in that state.

In a statement Wednesday, the company said Privanet had received a letter of tender acceptance from the Malacca state government to install a complete fibre optic network in the state by the third quarter of 2012.

Privasia chief executive officer and managing director Puvanesan Subenthiran said that upon completion, the project would enhance the internet experience and connectivity of the population.

"This project will certainly elevate us to the next level in the telecommunications industry," he said.

Privasia said the project was awarded by Melaka ICT Holdings Sdn Bhd (MICTH), a state-owned enterprise that provides ICT services, solutions and products to assist the state government in empowering Malacca as a key centre of excellence in the ICT sector.

The project is expected to be completed by September 2012, it said.

## Privasia bags Malacca fibre optic network deal

**PETALING JAYA:** Privasia Technology Bhd has bagged a RM12.8 million contract from the Malacca state government to install a complete fibre optic network in the state.

The project, expected to be completed by September this year, is expected to contribute positively to its profitability in 2012.

Privasia, an information, communication technology (ICT) outsourcing and consultant company, will supply, deliver, install, test, commission and maintain fibre optic net-

work connection, as well Internet Protocol Networks and Multiprotocol Label Switching throughout Malacca.

“Upon completion, this project will undoubtedly enhance the Internet experience and connectivity of the population. The project will certainly elevate us to the next level in the telecommunications industry,” chief executive officer Puvanesan Subenthiran said in a press release.

The project was awarded by

Melaka ICT Holdings Sdn Bhd, a state-owned enterprise that provides ICT services, solutions and products to assist the state government in empowering Malacca as a key centre of excellence in the ICT sector.

Privasia hopes that this contract will be a reference site that enables it to approach more state enterprises to achieve last-mile ICT connectivity.

“We are looking to establish a long term working relationship with the

Malacca state government and Melaka ICT specifically, as we are very encouraged by their far-sighted and innovative initiatives in bridging the digital divide.”

Privasia’s projects include the installation of a high speed broadband network in Kuantan, Pahang and a WiFi rollout plan for Perak.

The National Broadband Initiative, Malaysia’s broadband household penetration rate as at January 2012 was at 62.3 per cent.
